

## QUALITY, ENVIRONMENT AND HEALTH AND SAFETY POLICY

ARCONI is a Spanish company established in 2005 and specialized in the manufacture of high added value products for corrosive fluids in piping and equipment with application in the Industrial Construction, Oil & Gas, Petrochemical, Food and Mining sectors.

ARCONI is a leader in the design and manufacture of piping systems and fittings internal lining with fluoropolymers (fluorinated polymers and copolymers) and polypropylene, as well as in the commercialization and repair of valves declares that:

As a consequence of ARCONI's own values and given our international presence and the market in which we operate, Quality, Safety and Health and the path towards Sustainability are our pillars of reference.

Thus, ARCONI's operations are guided by the following points:

1. How these decisions affect or may be affected by Quality, Health & Safety and Environmental requirements and policies is taken into account for all Senior Management decision making.
2. In order not to cease in the growth and continuous improvement of the organization, annual objectives and goals are established and periodically reviewed, always based on an analysis of the environment in which the organization operates and the stakeholders that exist, as well as the risks and opportunities arising therefrom.
3. All decisions, objectives set by the organization, daily operations, etc. are oriented to the satisfaction of our clients, based on legal compliance (both national and international), as well as applicable standards and codes specific to projects or those voluntary standards that the company decides to implement.
4. This is achieved by delivering products and services to customers that meet their expectations and are safe in operation and maintenance, in addition to being increasingly respectful of the environment.
5. We work continuously to preserve the Health and Safety of our Employees, Subcontractors and Suppliers and to protect the Environment by minimizing risks and implementing socially responsible behaviors in all ARCONI's activities.
6. We try to promote the innovation of our processes through the implementation of technological improvements that the market makes available to us.
7. We promote the training of our members in all areas of our processes, as well as the knowledge and awareness of Quality, Health and Safety and Environment, encouraging consultation and participation both inside and outside the organization.

## QUALITY, ENVIRONMENT AND HEALTH AND SAFETY POLICY

8. We communicate relevant and truthful information about ARCONI's activities, conducting internal and external audits to ensure accountability and promoting continuous improvement.

All members of ARCONI, starting with Management, are responsible for implementing, taking into consideration and keeping up to date the organization's management system, as well as ensuring compliance with all its work policies.

For the effective involvement of all members of ARCONI and the application of these principles, this Policy is disseminated throughout the organization and is available to any interested party who wishes to consult it.

Juan Antonio Mauro
